CONVEYORS CXL-LINE

It does not get any better than this!
By far the most robust and efficient conveyor-series.

The CXL-series has been developed in a co-operation between our engineers and a number of our most demanding customers within the rental and construction industry. We are therefore sure that the Baron CXL-series will live up to even the highest demands as to strength, durability and maintenance.

The closed side profile provides extreme load capacity and horizontal strength (no deflection). The side profile also gives a very high user safety.

A Baron CXL-conveyor can be used for all types of application areas from rough demolition, concrete and soil transport.

Baron! : The right conveyor at the right price.

BARON CXL-LINE

- High durability and stability
- Superior pulling power
- Easy to clean and maintain
- Heavy duty PVC-belt
- Easy adjustment of the belt
- Superior quality and finish
- Closed side profile
- High user security
- IP67 on all electrical parts
- Endures high pressure cleaning
- All electrical parts are built in and well protected
- Sturdy
- Fork lift openings
- Fully extruded aluminium side profile
- Low weight
- Good stackability
- Long life time
- Easy and quick to maintain
- Can be used for a wide range of application areas
- Wide and sturdy hopper for better efficiency
- Low maintenance costs

IMPORTANT!: Our conveyors 3.30m, 4.50m and 6.00m are now available with an extra sturdy belt quality. We call it HD (Heavy Duty) and you will get a 50% stronger belt for a minor surcharge in price.
